INSTALLATION NOTES:

Remisafe HG hinged doors can be installed into new or existing cooler boxes. No anti sweat is required with our design. Customer must confirm rough opening dimensions to ensure proper fit of the doors and frames. No product has to be removed from the cooler box prior to or during the door installation. Most installations are complete in 1 or 2 days and can be done overnight to minimize disruption at your store. Remis America will do all required low voltage electrical wiring. 20 year warranty against glass seal failure. Remis America warranties our product for 15 months from the date of shipment. This warranty is limited to repair or replacement, at Remis America's discretion. See warranty agreement for complete details.
